MEMORANDUM

TO: League Presidents
FROM: John Laverty
DATE: December 8, 2020
RE: EMSA Leagues and Special Projects Oversight
CC: Club Presidents

A significant part of the role of the EMSA Board is to provide oversight and advice to our member leagues. The following chart indicates which Director will become a point of contact for our leagues and special projects, which currently exist in the District. The role of the contact person will be to assist if an issue arises that requires consideration by the EMSA Board and to provide advice where requested. It is not expected that the contact person would attend all league meetings but could attend upon request.

All District operational issues will still be reported directly to EMSA through our District Administrator and all discipline issues will be reported to EMSA through the Discipline Manager.

The assigned contact person will make an initial connection with the current league president as an introduction in the near future.

We look forward to working with you.

League	EMSA Director
