How to Merge Duplicate Profiles within MySE

NOTE: If you can't merge two sub-profiles of an athlete together, you are more than likely the Guardian of that athlete. Guardians can see athlete sub profiles in their account, however *they are not able to merge them together*. The account owner of that particular sub profile will need to merge the duplicate profiles.

1. Sign in and go to the Household tab of your dashboard.
2. Click, hold down the mouse, then drag the profile to merge on top of the other sub-profile.
3. Click **Merge** to confirm.

- **NOTE:** Basic information for the profile that you merged will be lost *if it is different than the other profile*.
