INFORMATION BULLETIN

Bulletin #: I2020-118
Date: Nov. 12, 2020
To: Ontario Soccer; District Membership, ORA and Associate Members
CC: Ontario Soccer Board of Directors, Staff
From: Johnny Misley, Chief Executive Officer
Subject: Updates to Return to Play Guide and Plan based on new Government Framework

Ontario Soccer, in consultation with Canada Soccer and the Government of Ontario, continues to monitor the most recent developments surrounding the Coronavirus (COVID-19) pandemic, the resulting public health crisis and Ontario Soccer's Return to Play Plan.

The Government of Ontario recently announced that it has moved Ontario Public Health Units into its new COVID-19 response framework to keep Ontario operating safely and to better manage the impact of the global pandemic.

In recent weeks, various public health units have reported record cases of COVID-19. As the Provincial Sport Organization for soccer, recognized by the Ministry of Heritage, Sport, Tourism and Culture Industries, Ontario Soccer has been asked to do our part through its vast membership throughout the province, to help combat the virus. Public health is at risk.

Ontario Soccer has worked with the relevant Government Health and Sport authorities to update our [Return to Play Guide](#) and Plan to better reflect the new government framework within our Return to Play **three-phase** approach.

Organizations are now required to review the updated [Return to Play Guide and Plan](#) with the details of the new protocols, for each Zone, which are designated by four colours.

Ontario Soccer will determine timelines for each Phase in alignment with the Government of Ontario provincial health authorities involving government orders, restrictions and guidelines. We will continue to update membership through our Information Bulletins, as further updates to directives are known.

Ontario Soccer has created a Reference Guide (Zones) Overview to assist the membership in understanding these changes. **The following is based on the Government of Ontario Public Health Orders. Organizations must check with their local [Public Health Unit](#) for further restrictions, which may be different from the following.**
