

CALLING ALL LONDON-AREA COACHES & TDS!

You're Invited to a Special Presentation:

THE ONTARIO SOCCER SYSTEM

Over the last six years Ontario Soccer has been actively implementing Long Term Player Development (LTPD) and Standards Based Programs. Both of these have been initiated by Canada Soccer and promoted across our country. Ontario is the leader in developing and educating the soccer membership on these initiatives, including LTPD which has focused on modifications to the grassroots development system. Standards Based Leagues' initiatives started with the Ontario Player Development League (OPDL) and League 1 Ontario, which have now expanded to Ontario Academy Soccer League (OASL) and some Regional Leagues for clubs.

The presentation by Ontario Soccer Staff will focus on the development of the system to this date and the plans for the future. Topics will include Canada Soccer's new initiatives in **Coaching Development**, a **Club Licensing** and the **High Performance Player Development Program**. Provincial Associations and soccer organizations affiliated with Canada Soccer are expected to align themselves with these new initiatives. This discussion will be vital to you and your organization, so do not miss out!

SPEAKERS

Gary Miller
Technical Director

Gabriel Assis
Manager,
Player Development Program
